# Simple Direct Cremation

**Inclusive price £1920.00\***

Not everyone's wishes are to have a funeral service. Some want no fuss or ceremony; whilst other families do not want the expense of a full funeral. A deceased's wishes may state they do not want anyone else to be present, whilst others choose to separate the cremation from the funeral service itself.

We can offer a suitable local cremation at Wealden Crematorium, at low cost with no fuss, which enables families, if they so wish, to have a way to achieve what they want by way of looking after their loved one, but not having a full funeral service. Simple Direct Cremation does not allow for a service in the chapel; so no minister or celebrant is required; and no family members, or other mourners attend.

Full payment is required in advance of the cremation taking place.

# Funeral Director's Charges

Our funeral charges consist of a number of different elements, depending on the type and style of funeral service each family requires. Our experienced funeral arrangers will gently go through all the options available, resulting in a bespoke funeral, where we aim to match the needs and exceed the expectations of every family we have the privilege to look after.

In addition to the charges shown on this page, the cost of a coffin will need to be added, as well as other relevant third party disbursements; the costs of which are summarised on the following pages. We ask that a deposit payment of £3,000.00 be made at the time of arranging the funeral, to cover third party fees and disbursements we pay out on your behalf.

• Hearse to carry your loved one	£330.00
• 4 Bearers, smartly dressed to carry the coffin	£330.00
• Conveyance of deceased to our Chapel of Rest (within 20 mile radius - weekday) 8.30am-5.00pm	£280.00
• Professional Services Charge*	£2480.00

**TOTAL** £3,420.00

\*The Professional Services Charge is a proportion of all our business expenses and running costs, not otherwise itemised in our 'Funeral Estimate'. It includes the provision of all necessary staff to make all arrangements for the cremation or burial service; obtaining and processing statutory forms; preparing and attending to all essential documentation; making and receiving all necessary telephone calls; the booking of a minister/celebrant to take the service; the booking of a crematorium or church for the funeral service; receiving floral tributes; placing obituary and funeral notices in local and national newspapers; paying all third party disbursement fees on behalf of families; to providing our in-house 24 hour, 365 days a year, immediate personal service for the assistance and support of the families we care for, both during and after the funeral arrangement.

We pride ourselves that all our services and facilities are provided entirely in-house, by our own team. We own our premises, vehicles, Chapels of Rest and mortuary facilities, all of which are under our direct management. Many others in the funeral industry have to rely heavily, or even entirely, on out-sourcing the majority of what they do to third parties and are thereby unable to offer the same holistic operation and resulting high quality of service, which we are proud to provide to families we look after.
